

Cheers!! From the Diva Angels Tampa Bay Chapter, this year is flying by, and we are into spring and some of the best riding of the year and planning summer trips. Safety tip of the month: Get one of those small portable tire inflators for your bike and vehicle

and put it in your saddle bag (make sure to keep charged). My back tire is always a bi\*ch to check then fill. I set the device for "motorcycle & pounds of pressure desired" screw it on the air valve and push the start button. It reads the air and fills to the desired pressure then shuts itself off.... Remove device and done. How simple is that??
